Land acknowledgment - NCCHPP

We acknowledge that we are on an age-old Indigenous territory, a place of meeting and diplomacy between peoples and the site of the signing of the Great Peace treaty. We thank the Kanien'keha'ka (Mohawk) nation for their hospitality on this unceded territory.

Let's start with a case...

“Patient A is a 55-year-old African American woman, COVID positive, and history of uncontrolled diabetes.

Patient B is a 60-year-old White man, COVID positive, and no comorbidities.

Both need the 1 ventilator available.

The triage team reviews medical facts only and scores accordingly

Patient B scores better and receives vent.

Review reveals that 5 of the last 6 ventilator decisions have gone to White patients over African American patients.

Inequities noted.”

Sederstrom, N. O. (2020). *Unblinded: Systematic racism, institutional oppression, and colorblindness*. Bioethics.net, May 7, 2020.

Why Public Health Ethics?

These are just a few among many. All of these are important and call for critical attention.

Course development

2016

- U of M literature scan; 2-year research partnership

2017

- 2 Canada-wide surveys with U of M;
- NCCHPP published survey results

2018-20

- Testing and course development with U of Waterloo MPH program and learning centre

2018-19

- Course content reviewed by 11 professionals/experts

2019

- Tested material with 3 Ontario PH units; partnership with Public Health Training for Equitable Systems Change (PHESC)

2019

- 8 MOHs and experts interviewed for video clips to add to course content

2020

- Course published in English and French in October

Learning objectives

- Describe different ways of looking at the field of public health ethics and relate these to the aims, practices and policies of public health.
- Apply ethical concepts, frameworks, values and principles.
- Identify ethical issues that arise in connection with case studies, policies, programs or professional practice.
- Deliberate to bring ethical values into play to inform decisions about a policy, program or course of action.
- Find, use and contextualize additional resources in order to add to your knowledge and experience in public health ethics.

6 Modules - 5 hours

Module 1
Public Health Ethics and
its Importance

Module 2
What is Public
Health Ethics?

Module 3
Mapping Public
Health Ethics

6 Modules - 5 hours

Videos and case studies

Case Studies

Please click on the image of the case you wish to work on.

- Case 1: Vaccinations
- Case 2: Healthy Food Program
- Case 3: Healthy Moms and Healthy Kids
- Case 4: Heat Wave Response

The image displays a user interface for selecting case studies. It features a teal header with the text "Case Studies". Below the header, a prompt asks the user to "Please click on the image of the case you wish to work on." There are four square images arranged in a row, each with a corresponding case title below it: "Case 1: Vaccinations" (showing a person's arm being vaccinated), "Case 2: Healthy Food Program" (showing a variety of fresh vegetables), "Case 3: Healthy Moms and Healthy Kids" (showing a woman holding a baby), and "Case 4: Heat Wave Response" (showing children playing in a water park).
